 Malir Karachi

 My Portfolio Website

Summary

Motivated and detail-oriented Full Stack Web Developer with hands-on experience in building real-world web applications, including e-commerce and management systems. Skilled in both frontend and backend development using modern technologies such as React, PHP, and .NET. Passionate about creating responsive, user-friendly interfaces and efficient system functionality. Eager to contribute to innovative projects and grow in a dynamic development environment.

Education

Matric , King Edward Grammar School	Karachi, Pakistan
Intermediate , Goverment College For Girls	Karachi, Pakistan

Skills

HTML , CSS , JS		.NET Core MVC	
PHP		WordPress	
React JS		SQL	

Projects

Bags E-commerce Website (Client Project):

Developed a complete e-commerce website for a client
Implemented product listings, shopping features, and responsive UI
Focused on improving user experience and easy navigation

Bus Reservation System (Semester Project)

Designed and developed a system for managing bookings and schedules
Integrated customer data handling and structured database system
Improved efficiency with a clean and user-friendly interface

Shop Nova Website (Competition Project):

Built an e-commerce platform for IT competition
Implemented product catalog, responsive design, and smooth navigation
Focused on performance and modern UI/UX design

AI-Powered Mock Interview Platform (Competition Project):

Built an AI mock interview app using a **.NET Core (MVC)** backend for real-time question generation.
Managed the **SQL Server** database via manual scripting to efficiently log candidate performance logs.
Designed a highly responsive user interface to ensure a seamless and smooth simulation experience.

Courier Website (Semester Project):

Developed a system for parcel tracking and delivery management
Implemented database structure for users, locations, and tracking
Designed an efficient and simple interface for user interaction

Professional Experience		
Full Web Development Intern, FentixTech		06/2026 – 08/2026
- Built responsive, user-friendly web features and modules based on defined technical requirements. - Troubleshoot application bugs and optimized user interfaces to ensure a seamless cross-device experience. - Managed project execution within target deadlines while maintaining high standards for code quality and structure. Achievement: Awarded an official Certificate of Completion in recognition of project delivery.		Remote
Web Development Intern, NexSoft Solutions		05/2026 – 07/2026
- Developed and deployed a diverse portfolio of mini-applications, enhancing both frontend layout aesthetics and backend system logic. - Applied clean coding principles and modern web standards across multiple hands-on project tracks. - Collaborated via remote workflows, adhering to strict project guidelines and successfully meeting technical deliverables. Achievement: Earned an official Certificate of Completion for successfully finishing all assigned projects.		Remote

Key Strengths	
- Full-Stack Technical Problem Solving - Fast Adaptability to New Technologies - Responsive UI/UX & Database Optimization	- Clean & Efficient Code Execution - Remote Work & Time Management
